104 PIECES

The **100 * 120** Perforated Container Crate (**100 x 120 x 76 cm – 35kg**) is a durable, reusable logistics and storage container made from UV-resistant HDPE. Its perforated design ensures crucial airflow. The crate is easily handled, allows safe stacking of 11–12 units high when fully loaded, and optimizes storage space when empty: three crates can be efficiently nested/packed together for transport. Mobility is customized via changeable feet or wheels, and the exterior includes areas for custom branding.

104 PIECES

The **100 * 120** Solid Container Crate (**100 x 120 x 76 cm – 36kg**) is an industrially durable, reusable storage solution made from UV-resistant HDPE. Specifically designed to contain liquids, this closed model is critical for the storage and transport of spoiled or decaying fresh produce. It is a preferred choice in fruit juice factories, olive oil mills, and grape processing plants. The crate is easily maneuvered and safely stacks 11–12 units high when fully loaded. For optimized return logistics, three empty units can be nested together. It features changeable feet or wheels for tailored mobility and includes dedicated spots for custom branding.
